

# THIS IS OUR COVENANT

והיה לאות ברית ביני וביניכם

For the first time in US history, a government agency has regulated the performance of a Mitzva. The new law would prohibit traditional Bris Milah, which includes metzitzah b'peh, unless Mohelim convey the agency's biased and baseless opinion that it is unsafe.

This requirement infringes on basic freedoms of religion and speech. It also sets an historic precedent that can be used against Bris Milah in general, chas vishalom.

**Major Jewish organizations have united to oppose the libel against this Mitzvah. A top-tier law firm has been retained and a lawsuit filed to defend our right to perform the sacred Bris as it has been performed safely for thousands of years.**
